

# Scenes

## What are Scenes?

Scenes are stored combinations of equipment states. For example if you want to have Pump 1 at high speed and Pump 2 at low speed and the Light ON, you could store that in a Scene and recall this combination at any time.

## Storing a Scene

Press a Scene number and hold until "Scene stored" appears at the bottom of the screen to save the current equipment combination.

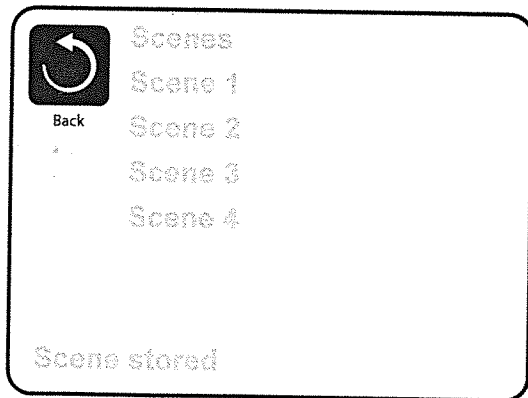

This appears once the  
Scene has been stored

## Recalling a Scene

To recall a Scene simply press a Scene number.

Pressing any Scene line which has not yet been stored will simply turn off all spa devices.
